Jondhale College of Engineering

Grade- 8.2
2020-2024

PROFILE

Passionate Android Developer committed to continuous growth and innovation in mobile app development. Skilled in crafting impactful experiences and eager to collaborate on innovative projects. Let's connect and push boundaries together in Android development!

PROJECTS

LITTLE LEMON FOOD ORDERING APP

During my journey through the Meta Android Specialization, I conceptualized and developed the Little Lemon Food Ordering app, aiming to streamline the food ordering process for users while showcasing my skills in Android app development and mobile UI/UX design.

INSTAGRAM CLONE

As an aspiring Android developer, I took on the challenge of building an Instagram clone using Kotlin and Firebase in Android Studio. This project aimed to replicate the core features of the popular social media platform while leveraging the power of Firebase for real-time database functionality and user authentication.
